Mini Implants with Biomimetic Tooth Construction Symposium

Taught By:
 Dr. Georgene Chase
 3715 Lakeside Drive, Suite B
 Reno, NV 89509
 (775) 786-7718
 Fx: (775) 786-6177

Dr. Gregory Sawyer
 15951 Los Gatos Blvd, Suite 8
 Los Gatos, CA 95032
 (408) 420-0900
 Fx: (408) 402-0922

Class Schedule

Mini-Implants Seminar Friday, May 7, 2010

8:00 a.m.	Section 1: Learn the assessment, indications, contraindications, and preparation for mini-implants.
12:00 p.m.	Lunch Break
1:00 p.m.	Section 2: Learn the techniques for placing the mini-implants.
4:00 p.m.	Product Demonstration

*Continental breakfast & lunch provided

Day 1 Course Fee:

\$975

Mini-Implant Fixed Resin Restorations Seminar Saturday, May 8, 2010

8:00 a.m.	Section 1: Learn about the materials currently available for biomimetic tooth reconstruction. Learn basic biomimetic theory.
12:00 p.m.	Lunch Break
1:00 p.m.	Section 2: Hands-on Learn the techniques for dental reconstruction on mini-implants.

*Continental breakfast & lunch provided

Day 2 Course Fee:

\$1600
 (includes restorative materials valued at \$700.00)

Dr. Gregory Sawyer graduated Magna Cum Laude and Phi Beta Kappa from the University of Southern California with a BS in Chemistry. He earned his DDS from USC with honors, Omicron Kappa Upsilon (National Dental Honor Society). Dr. Sawyer was awarded a certificate in Hospital Dentistry from the University of California, Los Angeles. He is a Fellow in the World Congress of Minimally Invasive Dentistry and a Fellow and a Diplomate in the International Congress of Oral Implantology.

Dr. Sawyer is also an active member of the Academy of Osseointegration, the American Academy of Implant Dentistry, the North American Academy of Computer Dentistry, the Academy of Laser Dentistry, the American Association of Periodontology, the California Dental Association and the American Dental Association, and a founding member of the Dental Organization for Sleep Apnea. He has been a consultant for several companies in the dental industry, including 3M/IMTEC, Kavo, Lares Research, and Suni Imaging Microsystems.

In addition to his thriving practice, Dr. Sawyer has been providing Continuing Education for dentists for over six years. He focuses on minimally invasive dentistry, implantology, periodontics, and laser dentistry in his lectures. He has been a featured speaker at the World Congress of Minimally Invasive Dentistry, the Star of the South, the Nations's Capital Dental Meeting, the Chicago Midwinter, The International Congress of Oral Implantologists, and spent two weeks in Asia last year lecturing on implantology. This January, he was featured at the Yankee Dental Congress doing a live four mini implant surgery on stage.

Dr. Georgene Chase has been practicing dentistry for 19 years in both Nevada and California. She did her undergraduate work at the University of Nevada, and her Doctorate of Dentistry at the University of Southern California. She completed a residency in Hospital Dentistry and a residency in Medically Compromised Patient Care. Attending UCLA and the University of Washington, Seattle, Dr. Chase continues to pursue advanced training. She has been certified in Implantology since she was a senior in Dental School at USC and has upgraded her certificates to parallel the changes in Implantology. She is a proud member of the International Congress on Implantology. Dr. Chase is also Certified in Laser Technology, Perio Protect, Orthognathic Orthopedics and maintains her active membership in the International Orthodontic Association. She was certified as a mini-implant instructor with 3M/IMTEC in 2008.

Dr. Chase is a long time member of the American Dental Association and her local components. She is an active participant in the American Dental Association Professional Product Review Committee, as well as the legislative committee for the Nevada Dental Association. She also serves as a State Delegate from her local component society. She is an active member of the American Association of Gnathological Orthopedics, International Congress Oral Implantology, International Association of Orthodontics and recently she began working on the formation of the American Association of Biomimetic Clinicians.

Dr. Chase works extensively with Mini-Implants and Biomimetic Tooth construction. She has brought several areas of dentistry together in a unique and useful way for general dentists. Her innovative techniques can create powerful new profit centers for doctors that patients LOVE.
